RUBBER RECLAMATION EQUIPMENT

Designed and engineered to turn rubber waste into a reusable resource, Our rubber reclamation equipment give you the most competitive edge for your production.

PROFILE:

RUBBER RECLAMATION MACHINERY

Rubber reclamation machinery is designed for regenerating waste tires or waste rubber products or rubber scraps to become reclaimed rubber.

APPLICABLE MATERIALS:

Rubber, rubber foam, PVC and EVA

FEATURES:

- ▶ Designed to reduce rubber waste storing space, and improve working environment.
- ▶ Eliminates burning or throwing away of rubber waste for improved environmental protection.
- ▶ Produces a reclaimed resource to reduce production costs while creating economic efficiency.

簡介:

再生膠加工機用於將廢橡膠成品，橡膠廢料經過打碎、研磨、精練，而成為可再使用的回生橡膠。

適用範圍：橡膠、橡膠發泡、PVC、EVA

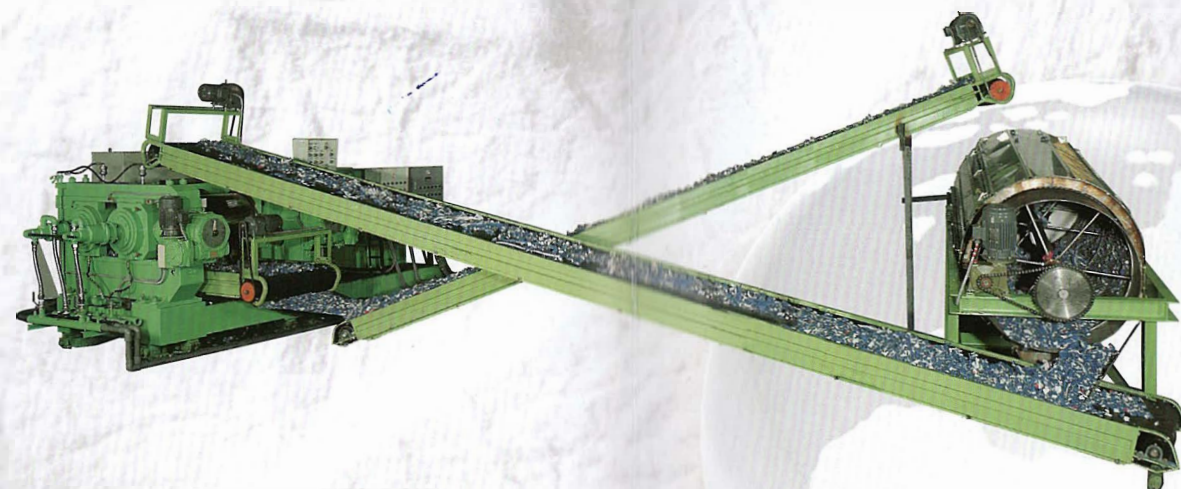

特性:

- ▶ 減少廢料堆放空間，改善作業環境。
- ▶ 廢料不必燃燒、丟棄、具環保效益。
- ▶ 資源回收再利用，降低成本，符合經濟效益。
